

Azalea House Farm

Price List

Azalea House Farm grows its azaleas and native grasses and trees "in ground". We dig as you buy. This allows a conservation approach to watering and provides the end user with a plant with roots that have naturally expanded, never root-bound. Our farm specializes in hardy Florida native plants, either requiring no irrigation or low irrigation in your landscaping. We provide delivery on any orders of 50 plants or more in a single order and we ask a minimum 10 plant order. Checks and cash are accepted.
